

A Good Corporate Citizen

We are engaged in various social contribution activities, including efforts to interact and communicate with local communities where our offices are located, taking part in volunteer activities, and providing support for educational initiatives.

Contribution to Local Communities

Tombo-Ike Observation Tour

We held an observation tour of the Tombo-Ike (dragonfly pond), located at the biotope in our Gotemba Plant. Children and their families from the local community participated in this activity.

Blood Donation Campaigns

Blood donation campaigns are carried out once or twice a year at each of our offices. In fiscal 2012 as well, a large number of employees were generous blood donors in these donation drives.

Organizing Festivals / Events

In August 2012, we held the 26th Noryosai (summer festival) on the premises of the company housing and dormitory for single employees, which are attached to the Shonan Operation Center. Many people came to the Festival, which served as a space for communicating with neighboring residents and business partners. Employees set up stalls and organized traditional dances, making the event an enjoyable one for children and adults alike.

Cleanup Activities

We organize cleanup activities in the vicinity of our manufacturing bases both in Japan and abroad, with the aim of raising employees' awareness of the environment. Outside of Japan, we carry out cleanup activities around the Oregon Plant of our American subsidiary, TOKYO OHKA KOGYO AMERICA, INC.

| Offices and Sites | Main Activity Implemented |
|-------------------------|---|
| Sagami Operation Center | Presented television set as gift to the Samukawa Town Fire Department |
| Koriyama Plant | Cleanup activities within the premises of No.2 industrial park |
| Utsunomiya Plant | Red Cross blood donation campaigns |
| Kumagaya Plant | "Zero Garbage" Campaign at the Kumagaya Industrial Park |
| Gotemba Plant | Tombo-Ike Observation Tour |
| Aso Plant | Donation drive for Central Community Chest of Japan |
| Headquarters | Donations toward 34th Nakahara "Yume" Citizens' Festival |

Contribution Toward Improvements and Development of Science and Technology

Tokyo Ohka Foundation for The Promotion of Science and Technology

FY2012 (23rd) Mukai Prize Award Ceremony

The Tokyo Ohka Foundation for The Promotion of Science and Technology celebrated its 27th anniversary on May 29, 2013. Throughout this time, the Foundation has provided funding for research and education in the field of science and technology, which is expected to contribute to the development of industries and the economy. In recent years, there has been a decline in the number of future scientists as youths are tending to move away from science subjects in school. This has raised concerns over possible threats to the development of science and technology in Japan. In order to contribute as far as possible to fostering greater interest in science among youths, the Foundation provides funding to volunteer organizations throughout Japan with the aim of promoting science education. In all our activities, we remain deeply grateful toward TOKYO OHKA KOGYO CO., LTD. for its donations, as well as for the efforts of all relevant parties toward the operation of the Foundation. It is my earnest wish to see greater utilization of the subsidies provided by our Foundation amongst those who are engaged in the field of science and technology.

Tokyo Ohka Foundation for The Promotion of Science and Technology
the Chairman of the board of director, **Akira Fujishima**

Tokyo Ohka Foundation for The Promotion of Science and Technology was established by the late Shigemasa Mukai, the founder of Tokyo Ohka Kogyo. Its mission is to develop proprietary technology through fundamental research for the development of Japan, which has few natural resources, and the application of these technologies to industrial uses to achieve peace and prosperity among humankind. To that end, the Foundation provides funding for research and development in the field of science and technology, as well as for research exchange. A large number of beneficiaries are covered under the following grant categories: Grants for Research Projects; Grants for International Exchange; Support for the Promotion of Research Exchange Programs; and Grants for Promotion of Science Education.

In fiscal 2012, the Foundation provided a total of ¥22.47 million in grants to 46 projects. From its founding till the end of March 2013, the Foundation had provided an accumulated total of ¥473.16 million in grants to 665 projects. Please visit the Foundation's website for details about the grants and projects.
